

Full stack review

1. Groot academy is the best place to learn the **Full Stack** Development training course. If you are fresher and want to make a career as a Full -Stack developer. the best place in Groot Academy in Jaipur. where you definitely gained your skills and easily got a job in Your domain. They also provide mock interviews , test series and more activities to achieve your goals.
2. The environment is so good and calm. Fun programming and a lot of knowledge. I learn quickly as it is easy to get along with the trainer and other staff members. The trainer Mr. Satnam sir is so supportive that one can easily understand the programming from the scratch and if anyone is new to any programming language then this is the best place to learn and start with **Full stack** web developer.
3. I joined **GROOT ACADEMY** in January for a MERN **Fullstack** training course. My course is completed and I am very satisfied with the training facilities of GROOT. Satnam sir is very supportive. His knowledge about MERN is really good. Recommend to everyone.
4. I am Shivani, a student of the GROOT **ACADEMY** program. The program as a whole covers a lot of aspects related to web Development front-end development, Back -end development, Database, etc. However, It has given me lots of exposure and a great opportunity to apply myself in dealing with practical through Hands-on Live projects. It was a wonderful experience learning about a great technology from Groot academy as they gave so many practical examples and live projects so that our concept became more clear. Infrastructure is also good. I recommend Groot academy to others for IT training programs. Thank you Groot academy team.
5. **GROOT** Academy is the best place to learn about almost everything- from soft skills like personality development to technical skills like coding. The environment and the staff here encourages and motivates us to learn more. I have learned many skills here and will try to practice them .Great learning experience thanks for Groot institute 🙌🙌
6. I'm impressed with the hands-on approach of this web development course of Groot academy. It helped me gain practical skills with REACT JS & **MERN** STACK quickly. Thanks to groot team
7. My experience with Groot academy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Groot academy also provides lifetime placement assistance. I would highly recommend anyone interested in the Data Science course and **Data Analytics** course to go to this institution. Thank You Groot Team.
8. Hello, I am Anmol Bhandari, a former student of Groot academy. I opted for the **Web development** course from the institute and would like to review the course. The overall course structure was excellent and to the point as done in production level projects. The faculty Mr. Karan Chaudhary is super friendly and great to work with. The institute focuses on teaching not only the latest technologies but also according to the demand in the market

as well. The students were given hands-on practical knowledge and it's a great opportunity for us to work with Karan Sir on different projects too. I am very happy with my decision for a course of **web development** from Groot Academy

9. I joined Groot academy to learn **Java** and it was a great experience. Once I told my friend that I have to learn **Java**, he told me the names of some institute and also told about Groot academy and said that once If you go to the Groot academy then you will not go anywhere else and he said this rightly because satnam sir and Parth sir both have a lot of knowledge, I would also say that both have courses of knowledge. They not only learn how to write code, they also learn how to feel code. Groot academy is the best institute in Jaipur.
10. My experience with Groot academy was very good. The teachers are very skilled and globally certified. I did **Java** certification from Groot academy Pvt Ltd. I didn't have much knowledge in programming languages. bhaskar Sir teaches from the very basics making it very easy for the students to understand. Overall it's a very good platform with a very supportive environment
11. I really enjoy my **java** class always and amazing teaching style bhaskar sir no doubt this coaching amazing 🥰👍
12. I have done **java**, python and data structure here from satnam sir and bhaskar Sir. It was an excellent, fun learning experience. They have a deep knowledge of subjects and are very supportive to students. They explained the concept with such an ease that all courses. I think this is the best institute in Jaipur for anyone interested in Coding.
13. I have been a part of the Groot academy family for a long time... it's been a very great journey till now... When I joined Codependent first I took classes of c and c++ from parth sir and that was an amazing experience that i could not resist myself from learning more courses from here.... Then I also took classes of **java**, python and dsa from satnam sir and now I see myself superior to other people in these courses... The best part is that we can easily communicate with our mentors and they give a reply to our every doubt... I am very thankful to codeplanet for giving me this much knowledge and confidence
14. One of the best Institute where I learned the programming language. If you want expert in any language then this is the best choice. Before enrolling I had zero knowledge of **java** and python but now i became an expert in these languages and in their career architect program they will make you an expert for cracking interviews of tier one companies. There are multiple mock interviews which will polish you for the big interviews and also they will polish you in problem solving rounds of different companies.
15. Groot academy is a great institute with amazingly talented faculty. I have done **java** and DSA courses from here under satnam sir. The fear of coding which I had before is just gone. Too much improvement as compared to before. Big thanks to satnam Sir..
16. My journey started with my stream I.T not when i joined college. but when i joined Groot academy i got so many questions regarding languages **java** python but was not able to get proper guidance. The day I joined Groot academy all my questions and curiosity ends here. Satnam sir and parth sir start teaching from scratch and give us the knowledge till industry level. thanks you so much sir

17. I have enrolled myself in various courses that are being taught by satnam sir and bhaskar sir, both of them have helped me a lot in enhancing my technical knowledge... Satnam sir who is also an Oracle certified **java** professional with 100% score has cleared all my concepts regarding **java** and Parth sir on the other hand has also helped me a lot since day one. I have always been treated as a part of the Groot academy family, thanking you sir 😊 and looking forward to gaining more knowledge from you.
18. The teachers were really helpful and have a great knowledge of programming. They helped me a lot to sharpen my **java** and data structures skills and made me a better programmer and it all happens because they give quality education thanks to groot academy staff.
19. This is the place where I start to dream of success.. My expectations become high.. I had opted for core **java** first.. When I saw the quality of the studies I opted for the Data str course too.. And now successfully completed it thanks to groot staff. And i have recommended for every it student
20. Groot academy is Best institute for **java**.if you want to go then you must visit.I am studying from here ,day by day my all doubts are Clear and concepts are strong now.
21. Good training center in jaipur to learn **web designing** and web development courses. Environment of the institute is very nice. Trainer and management are so friendly to all students. They will teach individually about our doubts or any queries and new things. Placement is also good in **web designer** and development profile..thanks to groot academy.
22. I had completed a java script course from Groot academy jaipur, it was a great learning phase for me. They teach very well, special thanks to Statistics Instructors and my trainers.
23. Groot academy is one of the best academy for everyone who wants to learn and develop their skills in the IT world. The atmosphere here is amazing, the encouragement you get from the staff and all is amazing. Thanks to all the staff.
24. Groot Academy is a very good academy for learning courses like Fullstack development, Django and MERN stack Development. It was a great experience thank you
25. I wasn't sure when I was enrolled in the Full Stack development course but got a lot more than expected. At Jaipur Groot academy it was a great experience thank you..
26. I joined groot academy in jaipur for Reactjs training. It is a good learning experience. Faculty is very friendly and helpful to clear all the doubts, overall it has given me a deep knowledge and better perspective for the future .I highly recommend JAIPUR IT training as a place to learn...! Thanks and I recommend it to everyone.groot academy jaipurI got an opportunity to attend a demo class at T and it was a great experience and knowledge based session by the industry professionals. I really liked the session.
27. I have attended an online MERN stack Development course from Groot academy jaipur. It was a great learning experience with trainers and Industry Experts.

28. I learned python language in Groot academy. The teaching staff is very skilled. The way they explain the example programs is good. The main special thing is they just not only teach and leave the way they made us to understand is good. Thank you
29. It is Great experience to learn python fullstack. Nice and friendly management had a great time, learning in Groot academy Institute. Good Qualified faculty -satnam Sir and Swathi Mam. We can get many backup classes with the help of the Management faculty.
30. Groot academy One of the best institutes to start your career in **IT sector**. One of the best in jaipur with a worthy fee structure! Faculty is so co-operative. A great option for learning new skills and getting placement with a great package. Should go for it!
31. Groot academy is one of the best institutes in jaipur and i have completed a front **end** development course (HTML,CSS,PHOTOSHOP,JS) from Groot academy. satnam sir is the best educators. So i definitely recommended for this institute.
32. Groot institute is one of the best institutes in jaipur and I have completed my **Front-End Development** Course (HTML, CSS, JavaScript, Reactjs) from Groot. Here I have gained lots of knowledge and hands-on experience. Both Naveen sir and Avinash sir are excellent educators. His way of teaching is very excellent. So, I definitely recommend this institute.
33. I have completed my **Front-End Developer** course from Groot academy. Groot is the best Institute for non-technical students. I am very pleased with their experience and expertise. My special thanks to Satnam sir and pawan sir for helping me out on the way to success.
34. Best institute for web development in Jaipur and satnam sir is the no.1 teacher for web designing. If you are planning to be a full stack **web developer** then you should definitely visit the institute.
35. I have Completed my Full Stack Java Developer course from Groot academy. It is one of the best institutes for learning the new technologies in development and kick-starts your career as a software developer. It was very good experience to learn the new technologies like Spring and **React**. As I was from non technical background but their teaching style is very good. Due to their Industrial assignment, I got the offer letters from two companies. Teaching staff Anil sir and Onkar sir very supportive
36. I had an amazing experience studying at the best web development course in Jaipur. The curriculum was well-structured and covered all the key concepts and technologies in the field. The faculty was approachable and supportive, and their teaching methods were both effective and engaging. I would highly recommend this course to anyone looking to improve their web development skills.
37. I would highly recommend Groot academy in Jaipur to anyone who is interested in digital marketing. The trainers are excellent and have a great depth of knowledge in the field. The

course is designed in a way that makes it easy for beginners to understand and for experienced marketers to enhance their skills. I learned a lot and have already started applying the concepts in my own business.

38. I had an amazing experience studying at the best web development course in Jaipur. The curriculum was well-structured and covered all the key concepts and technologies in the field. The faculty was approachable and supportive, and their teaching methods were both effective and engaging. I would highly recommend this course to anyone looking to improve their web development skills.
39. I highly recommend Groot academy for anyone looking to excel in digital marketing. The institute offers a comprehensive curriculum that covers all the essential aspects of online marketing. The trainers are industry experts who are passionate about sharing their knowledge. I gained valuable skills and confidence to pursue a successful career in this dynamic field.
40. I had a great experience learning full stack development in Jaipur. The trainers are highly skilled and have a wealth of experience in the industry. The course is well-designed and The hands-on approach and real-world examples really helped me understand the concepts better. Highly recommended!
41. I recently joined the best web development course groot academy in Jaipur and it was a fantastic experience. The course content was well-structured and covered all the latest tools and technologies in the field. The faculty was experienced and dedicated to ensuring that each student understood the concepts and was able to apply them in real-world situations. I highly recommend this course.
42. The best place to learn Development Courses in Groot academy. Her mentor is very cool & friendly in nature. The environment of the class is very clean and active. In classes, we got a chance to work on a live **project** to understand easily.
43. "The curriculum at Groot academy is well-designed and covers all the essential aspects of development The institute focuses on practical learning, providing ample opportunities to work on real-world **projects**. It greatly contributed to my professional growth
44. I have completed a web development course in Groot academy Jaipur is the perfect blend of theory and practical application. I appreciate the emphasis on real-world scenarios and the opportunity to work on actual **projects**. This course is a great investment for anyone interested in a career in web development."
45. I have completed a Web **Development** course from Groot academy. And I recently got placed in 'Spectra Cube' as a Trainee Web Developer. I got great technical knowledge from faculties. And I am very satisfied with the support & guidance which is provided by the faculties of groot academy. I also want to thank the groot placement department who supported me a lot to conduct my interviews. Thanks to groot academy for the opportunity.

46. I would recommend Groot academy to learn Frontend as well as Backend **Web Development**. The faculty is quite skilled and the frequency of interview calls is quite high. As regards to the course material, I found it really helpful. Also, the companies which have a tie up with Groot academy offer really good packages for freshers
47. Groot academy is one of the best places for beginners to learn **full stack** web development. I Learned MongoDB, Reactjs, Expressjs, Node Js html, css, JavaScript. The Courses offered by them are really appreciative and the methodology of teaching and clearing doubts is really awesome..
48. Awesome place to learn coding (**Full stack** web development). Abhishek sir is a really experienced tutor, clearing every doubt. Personally recommend joining thanks to groot academy.
49. The trainer helped me to enhance my coding knowledge. He gave me good **project** support. Had awesome training experience, got the confidence and grip to do programming on my own.thanks to groot academy.
